

Hello Summer Academy Participants,

It's hard to believe but the first day of the Summer Academy is just around the corner. Listed below are a few reminders to ensure your academy is successful.

1. The academy starts promptly at 8:00 AM. To allow for registration, please plan to arrive at Forest Park Middle School **no later than 7:45 AM** on the first day, Tuesday, June 16.
2. If you are planning to take the course for Viterbo credit, please locate Cathy Fax in the registration area. She will have the necessary paperwork. Deadline for turning in paperwork and payment to Cathy Fax is June 17. Cathy will be located in the MS library through out the academy.
3. Please take a few minutes to visit the Academy Wiki Site <http://fpssummeracademy.wikispaces.com> It contains everything from the lesson plans of each class instructor to the menu for the week.
4. FOOD: Lunch is provided daily. There will be light snacks provided each AM and PM in the LMC. Please visit the wiki for menu details.
5. Signing up for your 5 classes: Please remember that all participants must sign up for one class in each of the five strands (5 total classes). There are 3 classes in each strand to choose from. The sign up will occur the first morning of the academy. We are doing this the "old school" way because the academy concept is too new to offer it online this year. We want everyone to have an opportunity to get into the classes that are needed to create the unit of study. Please consider reviewing the choices so you have some idea what you might sign up for on the first day. The sign up process will be shared after the keynote presentation.
6. Please remember to bring: your computer, red Summer Academy Binder, create your goggle account, bring one extension cord and powerstrip per group.
7. Google Account: EVERYONE** will need to sign up for a Google account as all Tech Tool Sessions will be utilizing some of the great online applications that Google offers. Steps to do this: - Go here: <https://www.google.com/accounts/>
- Click on the "Create An Account Now" link
- You can register using an email address as your username (ex: kafkac@franklin.k12.wi.us or a personal email address -- your choice) and that will be the username you use for any Google site you log into in the future.
- If you need further assistance, here is some more information and directions from Google: <http://www.google.com/support/accounts/bin/answer.py?answer=27441>

** Note: If you already have a GMail or Google account, no need to create a new one. You can use your existing one!
